Manual Consolidation
Latest Update

12.12.2020
22.09.2022

Introduction

Amongst other things the *Local Government Act 1995* empowers Council in the determination of policy under section 2.7 Role of Council - “(2)(b) determine the local government’s policies.”

In simple terms policy provides what can be done, management practices provide how it is done and delegation provides who can do it.

Council Policies provide guidance for future decisions and behaviour and the achievement of rational outcomes. Council policies show the approach that the Council intends to be taken in a particular issue and in the process:

- ~ Support consistency and equity in decision making,
- ~ Facilitate prompt responses to customer requirements; and
- ~ Promote operational efficiency.

This policy and procedures manual was created on 12 December 2020 and followed on from a previous 2005 Policy Manual as updated on 25 November 2020

Council Policies and Procedures

Council policies set governing principles and guide the direction of the organisation to align with community values and aspirations. These policies have a strategic, external focus and align with the mission, vision and strategic direction of the Shire.

Council Policies are developed to further the achievement of the Shires strategic goals or contribute to outcomes relating to mandatory obligations. They are defined courses of action related to particular circumstances which guide staff in what is permissible when dealing with related matters.

The structure of the Policy manual will align Council policies within the framework of Councils Community Strategic Plan as a means to deliver the Shires Vision of

Working together to preserve the unique character of the Shire, supporting diverse and sustainable lifestyle and economic opportunities

Each policy, procedure or other type of document related is also segmented into the following specific areas that broadly describe our operations

- Governance
- Councillors
- Human Resources
- Financial Management
- Community Economic and Recreation
- Works
- Building Planning and Health

Each is also specifically linked to our Community Strategic Plan under the following four well-being priorities.

- Economic
- Environmental
- Social
- Civic Leadership

Introduction

The Policy and Procedures form the Risk Management Framework for the Shire of Murchison (the “Shire”). It sets out the Shire’s approach to the identification, assessment, management, reporting and monitoring of risks. All components of this document are based on AS/NZS ISO 31000:2009 Risk Management.

It is essential that all areas of the Shire adopt these procedures to ensure:

- Strong corporate governance.
- Compliance with relevant legislation, regulations and internal policies.
- Integrated Planning and Reporting requirements are met.
- Uncertainty and its effects on objectives is understood.

This Framework aims to balance a documented, structured and systematic process with the current size and complexity of the Shire along with existing time, resource and workload pressures.

Further information or guidance on risk management procedures is available from LGIS Risk Management.

Risk Management Policy

Shire Requirement

Insert policy administration details/requirements where applicable e.g. Policy name, Implementation date, Revision date, Policy owner and delegations, Referenced legislation and standards.

Purpose

The Shire of Murchison (the “Shire”) Risk Management Policy documents the commitment and objectives regarding managing uncertainty that may impact the Shire’s strategies, goals or objectives.

Policy

It is the Shire’s Policy to achieve best practice (aligned with AS/NZS ISO 31000:2009 Risk management), in the management of all risks that may affect the Shire, its customers, people, assets, functions, objectives, operations or members of the public.

Risk Management will form part of the Strategic, Operational, Project and Line Management responsibilities and where possible, be incorporated within the Shire’s Integrated Planning Framework.

The CEO will determine and communicate the Risk Management Policy, Objectives and Procedures, as well as, direct and monitor implementation, practice and performance.

Every employee within the Shire is recognised as having a role in risk management from the identification of risks to implementing risk treatments and shall be invited and encouraged to participate in the process.

Consultants may be retained at times to advise and assist in the risk management process, or management of specific risks or categories of risk.

Definitions (from AS/NZS ISO 31000:2009)

Risk: Effect of uncertainty on objectives.

Note 1: An effect is a deviation from the expected – positive or negative.

Note 2: Objectives can have different aspects (such as financial, health and safety and environmental goals) and can apply at different levels (such as strategic, organisation-wide, project, product or process).

Risk Management: Coordinated activities to direct and control an organisation with regard to risk.

Risk Management Process: Systematic application of management policies, procedures and practices to the activities of communicating, consulting, establishing the context, and identifying, analysing, evaluating, treating, monitoring and reviewing risk.

Risk Management Objectives

- Optimise the achievement of our vision, mission, strategies, goals and objectives.
- Provide transparent and formal oversight of the risk and control environment to enable effective decision making.
- Enhance risk versus return within our risk appetite.
- Embed appropriate and effective controls to mitigate risk.
- Achieve effective corporate governance and adherence to relevant statutory, regulatory and compliance obligations.
- Enhance organisational resilience.
- Identify and provide for the continuity of critical operations

Risk Appetite

The Shire quantified its risk appetite through the development and endorsement of the Shire’s Risk Assessment and Acceptance Criteria. The criteria are included within the Risk Management Procedures and are subject to ongoing review in conjunction with this policy.

All organisational risks to be reported at a corporate level are to be assessed according to the Shire’s Risk Assessment and Acceptance Criteria to allow consistency and informed decision making. For operational requirements such as projects or to satisfy external stakeholder requirements, alternative risk assessment criteria may be utilised, however these cannot exceed the organisations appetite and are to be noted within the individual risk assessment.

Roles, Responsibilities & Accountabilities

The CEO is responsible for the allocation of roles, responsibilities and accountabilities. These are documented in the Risk Management Procedures (Operational Document).

Monitor & Review

The Shire will implement and integrate a monitor and review process to report on the achievement of the Risk Management Objectives, the management of individual risks and the ongoing identification of issues and trends.

This policy will be kept under review by the Shire’s Management Team and its employees. It will be formally reviewed every two – four years.

Signed:

Chief Executive Officer

Risk Management Procedures

Governance

Appropriate governance of risk management within the Shire of Murchison (the “Shire”) provides:

- Transparency of decision making.
- Clear identification of the roles and responsibilities of the risk management functions.
- An effective Governance Structure to support the risk framework.

Framework Review

The Risk Management Framework is to be reviewed for appropriateness and effectiveness at least every four years.

Operating Model

The Shire has adopted a “Three Lines of Defence” model for the management of risk. This model ensures roles; responsibilities and accountabilities for decision making are structured to demonstrate effective governance and assurance. By operating within the approved risk appetite and framework, the Council, Management and Community will have assurance that risks are managed effectively to support the delivery of the Strategic, Corporate & Operational Plans.

First Line of Defence

All operational areas of the Shire are considered ‘1st Line’. They are responsible for ensuring that risks (within their scope of operations) are identified, assessed, managed, monitored and reported. Ultimately, they bear ownership and responsibility for losses or opportunities from the realisation of risk. Associated responsibilities include;

- Establishing and implementing appropriate processes and controls for the management of risk (in line with these procedures).
- Undertaking adequate analysis (data capture) to support the decisioning of risk matters.
- Prepare risk acceptance proposals where necessary, based on level of residual risk.
- Retain primary accountability for the ongoing management of their risk and control environment.

Second Line of Defence

The Risk Framework Owner (RFO) - CEO acts as the primary ‘2nd Line’. This position owns and manages the framework for risk management. They draft and implement the governance procedures and provide the necessary tools and training to support the 1st line process.

Maintaining oversight on the application of the framework provides a transparent view and level of assurance to the 1st & 3rd lines on the risk and control environment. Support can be provided by additional oversight functions completed by other 1st Line Teams (where applicable). Additional responsibilities include:

- Providing independent oversight of risk matters as required.
- Monitoring and reporting on emerging risks.
- Co-ordinating the Shire’s risk reporting for the CEO & Management Team and the Audit Committee.

Third Line of Defence

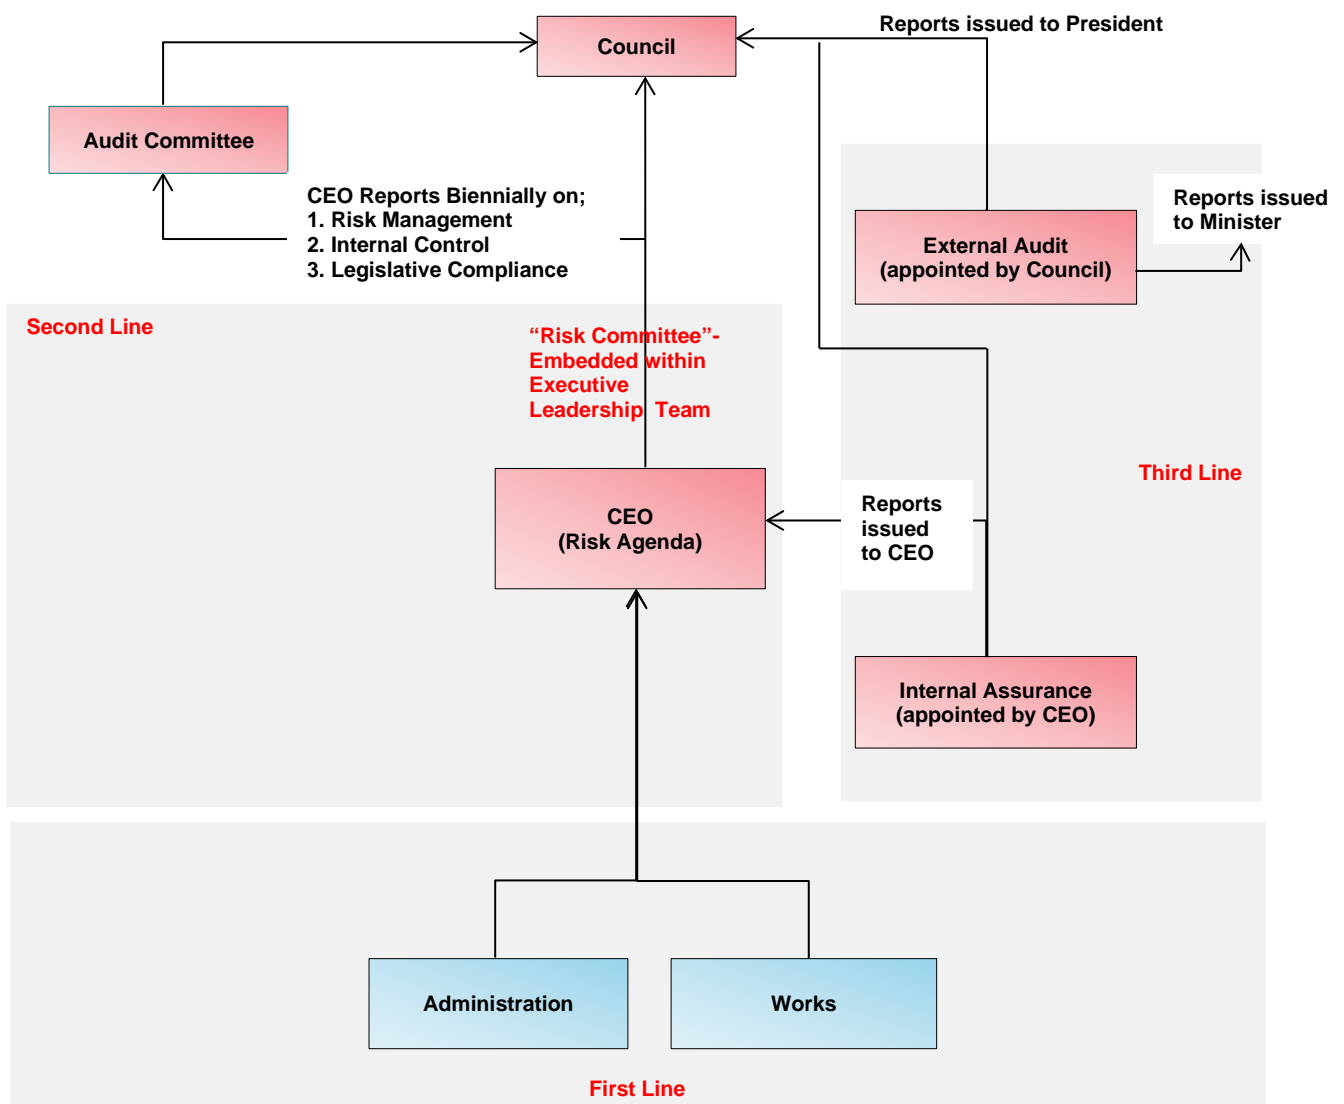

Internal & External Audit are the third line of defence, providing independent assurance to the Council, Audit Committee and Shire Management on the effectiveness of business operations and oversight frameworks (1st & 2nd Line).

Internal Assurance – Appointed by the CEO to report on the adequacy and effectiveness of internal control processes and procedures. The scope of which would be determined by the CEO with input from the Audit Committee.

External Audit – Appointed by the Council on the recommendation of the Audit Committee to report independently to the President and CEO on the annual financial statements only.

Governance Structure

The following diagram depicts the current operating structure for risk management within the Shire.

- Oversight of all matters that relate to the conduct of External Audits.
- Must be independent, objective and autonomous in deliberations.
- Make recommendations to Council on External Auditor appointments.

- Liaise with Council in relation to risk acceptance requirements.
- Approve and review the appropriateness and effectiveness of the Risk Management Framework.
- Drive consistent embedding of a risk management culture.
- Analyse and discuss emerging risks, issues and trends.

- Support reporting requirements for Risk matters.

Work Areas

- Drive risk management culture within work areas.
- Own, manage and report on specific risk issues as required.
- Assist in the Risk & Control Management process as required.
- Highlight any emerging risks or issues accordingly.
- Incorporate 'Risk Management' into Management Meetings, by incorporating the following agenda items;
 - New or emerging risks.
 - Review existing risks.
 - Control adequacy.
 - Outstanding issues and actions.

Document Structure (Framework)

The following diagram depicts the relationship between the Risk Management Policy, Procedures and supporting documentation and reports.

Risk & Control Management

All Work Areas of the Shire are required to assess and manage the Risk Profiles on an ongoing basis.

The Risk Framework Owner (RFO) is accountable for ensuring that Risk Profiles are:

- Reflective of the material risk landscape of the Shire.
- Reviewed on at least a six monthly basis, unless there has been a material restructure or change in the risk and control environment.
- Maintained in the standard format.

This process is supported by the use of key data inputs, workshops and ongoing business engagement.

Risk & Control Assessment

To ensure alignment with ISO 31000:2009 Risk Management, the following approach is to be adopted from a Risk & Control Assessment perspective.

Establishing the Context

The first step in the risk management process is to understand the context within which the risks are to be assessed and what is being assessed, this forms two elements:

Organisational Context

The Shire's Risk Management Procedures provides the basic information and guidance regarding the organisational context to conduct a risk assessment; this includes Risk Assessment and Acceptance Criteria (Appendix A) and any other tolerance tables as developed. In addition, existing Risk Themes are to be utilised (Appendix C) where possible to assist in the categorisation of related risks.

Any changes or additions to the Risk Themes must be approved by the Risk Framework Owner (RFO) and CEO.

All risk assessments are to utilise these documents to allow consistent and comparable risk information to be developed and considered within planning and decision making processes.

Specific Risk Assessment Context

To direct the identification of risks, the specific risk assessment context is to be determined prior to and used within the risk assessment process. For risk assessment purposes the Shire has been divided into three levels of risk assessment context:

Strategic Context

The Shire's external environment and high level direction. Inputs to establishing the strategic risk assessment context may include;

- Organisations Vision / Mission
- Stakeholder Analysis
- Environment Scan / SWOT Analysis
- Existing Strategies / Objectives / Goals

Operational Context

The Shire's day to day activities, functions, infrastructure and services. Prior to identifying operational risks, the operational area should identify its Key Activities i.e. what is trying to be achieved. Note: these may already be documented in business plans, budgets etc.

Project Context

Project Risk has two main components:

- **Risk in Projects** refers to the risks that may arise as a result of project activity (i.e. impacting on process, resources or IT systems) which may prevent the Shire from meeting its objectives
- **Project Risk** refers to the risks which threaten the delivery of project outcomes.

In addition to understanding what is to be assessed, it is also important to understand who are the key stakeholders or areas of expertise that may need to be included within the risk assessment.

Risk Identification

Using the specific risk assessment context as the foundation and in conjunction with relevant stakeholders, answer the following questions, capture and review the information within each Risk Profile.

- What can go wrong? / What are areas of uncertainty? (Risk Description)
- How may this risk eventuate? (Potential Causes)
- What are the current measurable activities that mitigate this risk from eventuating? (Controls)
- What are the potential consequential outcomes of the risk eventuating?

Risk Analysis

To analyse the risks the Shire's Risk Assessment and Acceptance Criteria (Appendix A) is applied:

- Based on the documented controls, analyse the risk in terms of Existing Control Ratings
- Determine relevant consequence categories and rate how bad it could be if the risk eventuated with existing controls in place (Consequence)
- Determine how likely it is that the risk will eventuate to the determined level of consequence with existing controls in place (Likelihood)
- By combining the measures of consequence and likelihood, determine the risk rating (Level of Risk)

Risk Evaluation

The Shire is to verify the risk analysis and make a risk acceptance decision based on:

- Controls Assurance (i.e. are the existing controls in use, effective, documented, up to date and relevant)
- Existing Control Rating
- Level of Risk
- Risk Acceptance Criteria (Appendix A)
- Risk versus Reward / Opportunity

The risk acceptance decision needs to be documented and those risks that are acceptable are then subject to the monitor and review process.

Note: Individual Risks or Issues may need to be escalated due to its urgency, level of risk or systemic nature.

Risk Treatment

For unacceptable risks, determine treatment options that may improve existing controls and/or reduce consequence / likelihood to an acceptable level.

Risk treatments may involve actions such as avoid, share, transfer or reduce the risk with the treatment selection and implementation to be based on;

- Cost versus benefit
- Ease of implementation
- Alignment to organisational values / objectives

Once a treatment has been fully implemented, the Risk Framework Owner (RFO) is to review the risk information and acceptance decision with the treatment now noted as a control and those risks that are acceptable then become subject to the monitor and review process (Refer to Risk Acceptance section).

Monitoring & Review

The Shire is to review all Risk Profiles at least on a six monthly basis or if triggered by one of the following;

- changes to context,
- a treatment is implemented,
- an incident occurs or due to audit/regulator findings.

The Risk Framework Owner (RFO) is to monitor the status of risk treatment implementation and report on, if required.

The CEO & Management Team will monitor significant risks and treatment implementation as part of their normal agenda item on a quarterly basis with specific attention given to risks that meet any of the following criteria:

- Risks with a Level of Risk of High or Extreme
- Risks with Inadequate Existing Control Rating
- Risks with Consequence Rating of Catastrophic
- Risks with Likelihood Rating of Almost Certain

The design and focus of Risk Summary report will be determined from time to time on the direction of the CEO & Management Team. They will also monitor the effectiveness of the Risk Management Framework ensuring it is practical and appropriate to the Shire.

Communication & Consultation

Throughout the risk management process, stakeholders will be identified, and where relevant, be involved in or informed of outputs from the risk management process.

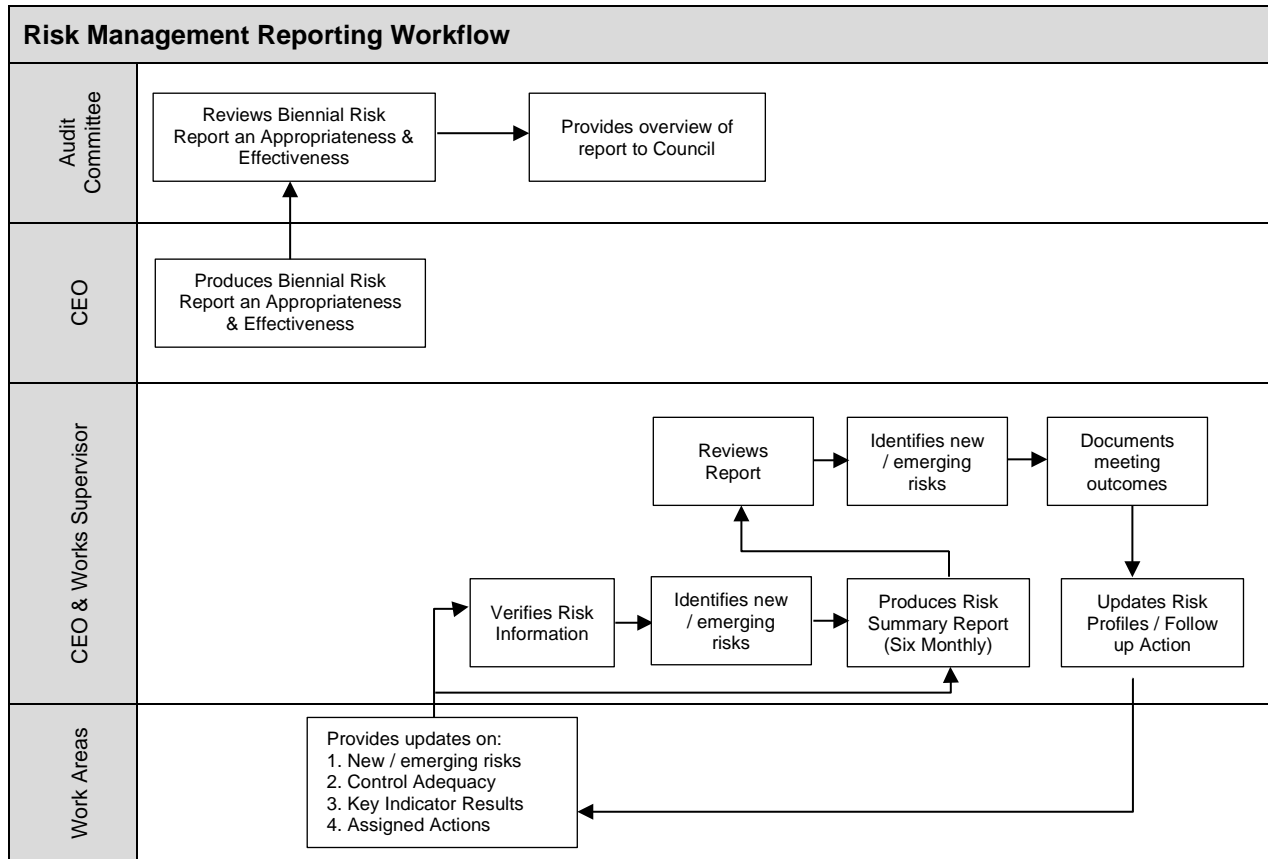

Risk management awareness and training will be provided to all staff.

Risk management will be included within the employee induction process to ensure new employees are introduced to the Shire's risk management culture.

Reporting Requirements

Coverage & Frequency

The following diagram provides a high level view of the ongoing reporting process for Risk Management.

Each Work Area is responsible for ensuring:

- They continually provide updates in relation to new, emerging risks, control effectiveness and key indicator performance to the Risk Framework Owner (RFO).
- Work through assigned actions and provide relevant updates to the Risk Framework Owner (RFO).
- Risks / Issues reported to the CEO are reflective of the current risk and control environment.

The Risk Framework Owner (RFO) is responsible for:

- Ensuring Shire Risk Profiles are formally reviewed and updated, at least on a six monthly basis or when there has been a material restructure, change in risk ownership or change in the external environment.
- Six Monthly Risk Reporting– Contains an overview of the Risk Summary for the Shire.
- Annual Compliance Audit Return completion and lodgement.

Key Indicators

Key Indicators (KI's) may be used for monitoring and validating key risks and controls. The following describes the process for the creation and reporting of KIs:

- Identification
- Validity of Source
- Tolerances
- Monitor & Review

Identification

The following represent the minimum standards when identifying appropriate KI's key risks and controls:

- The risk description and casual factors are fully understood
- The KI is fully relevant to the risk or control
- Predictive KI's are adopted wherever possible
- KI's provide adequate coverage over monitoring key risks and controls

Validity of Source

In all cases an assessment of the data quality, integrity and frequency must be completed to ensure that the KI data is relevant to the risk or Control.

Where possible the source of the data (data owner) should be independent to the risk owner. Overlapping KI's can be used to provide a level of assurance on data integrity.

If the data or source changes during the life of the KI, the data is required to be revalidated to ensure reporting of the KI against a consistent baseline.

Tolerances

Tolerances are set based on the Shire's Risk Appetite. They are set and agreed over three levels:

- Green – within appetite; no action required.
- Amber – the KI must be closely monitored and relevant actions set and implemented to bring the measure back within the green tolerance.
- Red – outside risk appetite; the KI must be escalated to the CEO & Management Team where appropriate management actions are to be set and implemented to bring the measure back within appetite.

Monitor & Review

All active KI's are updated as per their stated frequency of the data source.

When monitoring and reviewing KI's, the overall trend must be considered over a longer timeframe instead of individual data movements. The trend of the KI is specifically used as an input to the risk and control assessment.

Risk Acceptance

Day to day operational management decisions are generally managed under the delegated authority framework of the Shire.

Risk Acceptance is a management decision to accept, within authority levels, material risks which will remain outside appetite framework (refer Appendix A – Risk Assessment & Acceptance Criteria) for an extended period of time (generally 3 months or longer).

The following process is designed to provide a framework for those identified risks.

The 'Risk Acceptance' must be in writing, signed by the relevant Manager and cover:

- A description of the risk.
- An assessment of the risk (eg. Impact consequence, materiality, likelihood, working assumptions etc)
- Details of any mitigating action plans or treatment options in place
- An estimate of the expected remediation date.

A lack of budget / funding to remediate a material risk outside appetite is not sufficient justification in itself to accept a risk.

Accepted risks must be continually reviewed through standard operating reporting structure (ie. Management Team)

Annual Assurance Plan

The annual assurance plan is a monitoring schedule prepared by the Risk Framework Owner (RFO) that sets out the control assurance activities to be conducted over the next 12 months. This plan needs to consider the following components.

- Existing control adequacy ratings across the Shire's Risk Profiles.
- Consider control coverage across a range of risk themes (where commonality exists).
- Building profiles around material controls to assist in design and operating effectiveness reviews.
- Consideration to significant incidents.
- Nature of operations
- Additional or existing 2nd line assurance information / reviews (eg. HR, Financial Services, IT)
- Frequency of monitoring / checks being performed
- Review and development of Key Indicators
- Timetable for assurance activities
- Reporting requirements

Whilst this document and subsequent actions are owned by the Risk Framework Owner (RFO), input and consultation will be sought from individual Directorates.

The chair must ensure:

- ~ That the processes are followed in accordance with adopted standing orders;
- ~ That everyone present receives an equal chance to address the meeting according to the rules;
- ~ That the discussion is conducted fairly and without bias and according to the processes of the Shire

Nothing in this policy shall prevent a Councillor expressing his/her personal opinion to the media. However, as general principle, Councillors having dealings with the media when approached by it to make a statement or private comment on a matter of Council business, should have regard to any resolutions of the Council affecting the matter in question.

Individual Councillors, with the authority of the President, are authorised to make press releases or act as spokesperson on behalf of Council.

Relationships between Members and Staff

An effective Councillor will work as part of the Council team with the Chief Executive Officer and other members of staff. That teamwork will only occur if members and staff have a mutual respect and co-operate with each other to achieve the Council's corporate goals and implement the Council's strategies. To achieve that position members need to:

- ~ Accept that their role is a leadership, not a management or administrative one;
- ~ Acknowledge that they have no capacity to individually direct members of staff to carry out particular functions;
- ~ Refrain from publicly criticising staff in a way that casts aspersions on their professional competence and credibility.

In the event that a retiring Councillor has performed an extensive range of functions on behalf of the municipality which are beyond that normally associated with a Councillor's day to day duties, the Council may, at its discretion, by resolution nominate the Councillor for any awards (where applicable) associated with:-

- ~ Queen's Birthday Honours

3.4 Grievances Investigation and Resolution

Well-being

Civic Leadership

Policy Statement

All employees have a right to express any genuine grievances or complaints via an impartial internal process. All employees involved in a grievance process are expected to participate in good faith. For the purposes of this policy, the term “employee/s” will extend to cover contractors, volunteers and any person performing work for or with the **Shire of Murchison** in any capacity.

Details

Roles

<i>Complainant</i>	A employee who raises a complaint about a matter regarding the workplace.
<i>Respondent</i>	An employee who is alleged to have acted in a manner which caused the complainant to raise a complaint.
<i>Support Person</i>	A Complainant and/or a Respondent may choose to bring a Support Person with them to a meeting, where practicable. The role of a Support Person is not to advocate on behalf of anyone, but to simply provide emotional support.
<i>Witness</i>	A person (including an employee) who is requested by the Local Government to assist the process by providing relevant information regarding the complaint

What to do if you have a Complaint?

If an employee (Complainant) is the victim of behaviour of another employee (Respondent) which is inconsistent with the Local Government’s policies, procedures or guidelines (Policies), the Complainant should, where reasonable or practicable, first approach the Respondent for an informal discussion. If the nature of the complaint is deemed to be sufficiently serious, the complainant should contact their Manager or the CEO directly.

If the inappropriate behaviour continues, the Complainant is encouraged to make a formal complaint to their direct manager. If the direct manager is the Respondent in the matter or if the employee feels uncomfortable approaching their manager, the Complainant should approach the CEO.

The employee who receives the complaint must contact the CEO and decide upon the most appropriate way to take the matter forward, whether it is an informal discussion with the Complainant and/or the Respondent, or the commencement of a formal investigation of the complaint.

Complaints against the Chief Executive Officer

Any complaint against the Chief Executive Officer will be referred to the President, who will determine the most appropriate means of investigation and resolution. The procedures and timescales for any such complaint may fall outside the normal standard, and, should this be the case, this would be formally advised to the complainant.

Key Principles in the Complaint Resolution Process

The following principles are necessary for the fair investigation and resolution of a complaint:

Confidential

Only the employees directly investigating or addressing the complaint will have access to the information about the complaint. The **Shire of Murchison** may inform or appoint a third party to investigate or advise on the investigation. All parties involved in dealing with a complaint are required to keep the matter confidential. Information will only be placed on an employee's personal file if they are disciplined as a result of the complaint;

Impartial (fair/unbiased)

Both parties will have an opportunity to put their case forward. No assumptions are made and no action will be taken until available and relevant information has been collected and considered;

Sensitive

The employees who assist in responding to complaints should be specifically trained or equipped to treat all complaints sensitively and ensure the process is free of coercion or intimidation;

Timely

The **Shire of Murchison** aims to deal with all complaints as quickly as possible and in accordance with any legislative requirements;

Documented

All complaints and investigations must be documented. In formal grievance processes, records must be kept of all documents collected and/or drafted as part of that process. For more informal processes, a file note or note in a diary may be sufficient;

Natural Justice

The principles of natural justice provide that:

- ~ A Respondent against whom allegations are made as part of a grievance process has the right to respond to the allegations before any determination is made;
- ~ A Respondent against whom an allegation is made has the right to be told (where possible and appropriate) who made the allegation;
- ~ anyone involved in the investigation should be unbiased and declare any conflict of interest;
- ~ decisions must be based on objective considerations and substantiated facts; and
- ~ the Complainant and the Respondent have the right to have a support person present at any meetings where practicable.

Procedural Fairness

The principles of procedural fairness provide that:

- ~ the Respondent is advised of the details (as precisely and specifically as possible) of any allegations when reasonably practicable;

- ~ A Respondent is entitled to receive verbal or written communication from the **Shire of Murchison** of the potential consequences of given forms of conduct, as applicable to the situation;
- ~ The Respondent is given an opportunity to respond to any allegations made against them by a Complainant;
- ~ Any mitigating circumstances presented to the **Shire of Murchison** through the grievance process are investigated and considered;
- ~ the Respondent has the right to have an appropriate support person present during any inquiry or investigation process where practicable or necessary;
- ~ any witnesses who can reasonably be expected to help with any inquiry or investigation process should be interviewed; and
- ~ All interviews of witnesses are conducted separately and confidentially.

Outcome of Making a Complaint

If a complaint is substantiated, there are a number of possible outcomes. If the complaint involves a performance issue, the manager of the Respondent may commence a formal or informal performance management process with the Respondent or elect to discipline the Respondent in accordance with the Disciplinary Policy.

If the complaint involves a breach of a Policy or any other behaviour that is inconsistent with the employment relationship, the manager of the Respondent, in consultation with CEO, may elect to discipline the Respondent in accordance with the Disciplinary Policy.

Vexatious or Malicious Complaints

Where a Complainant has deliberately made a vexatious or malicious complaint that Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

Victimisation of Complainant

A Complainant must not be victimised by the Respondent or any other employee of the **Shire of Murchison** for making a complaint. Anyone responsible for victimising a Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

Variation to This Policy

3.5 Performance Management

Well-being

Civic Leadership

Objectives

To provide Council's management, supervisors and staff with a fair process to manage situations where unsatisfactory performance is identified.

Details

Scope

This policy applies to all employees at the **Shire of Murchison**, where unsatisfactory performance is identified.

This policy applies outside of the annual performance review process and can be introduced at any time when unsatisfactory performance is identified.

Definitions

Key Performance Indicators The parties acknowledge key performance indicators as a means of measuring what has been achieved and the need for any further improvements.

Performance Management Performance management is a cyclical process that aims to: achieve a shared understanding of organisational and job goals; and demonstrate how clear objectives and standards of behaviour enable the achievement of such goals.

This policy has been designed to ensure that supervisors and employees are supported by a clear framework for identifying, managing and documenting instances of unsatisfactory performance, in a manner that is consistent with the principles of natural justice and procedural fairness.

Identification of Unsatisfactory Performance

In considering whether an employee's performance is unsatisfactory, supervisors should ensure the expectations of performance are reasonable and are consistent with the:

- ~ Position Description for the role;
- ~ employee's key performance indicators;

- ~ requirements of the relevant classification under the **Local Government Industry Award 2010**; and
- ~ **Shire of Murchison's** required standards.

Responsibilities

It is agreed that as part of any performance management process, the responsibilities of those involved will be as outlined below:

- ~ Meet the performance expectations outlined by the **Shire of Murchison**.
- ~ Report immediately to the line manager any circumstances that may impact on the employee's ability to meet the performance expectations.
- ~ Contribute to the development of the Performance Improvement Plan and actively participate in the review meetings.

Line Manager/Supervisor

- ~ Actively participate in the performance management process.
- ~ Conduct regular review meetings for the duration of the performance management process.
- ~ Document progress in a Performance Improvement Plan.
- ~ Provide honest, constructive, timely feedback and reasonable support on an ongoing basis.

- ~ Ensure the process identified in this document is adhered to in accordance with the principles of natural justice.
- ~ Address any issues that arise through this process with the relevant employee.

Employee Relations Consultant

Provide support and guidance on the policy.

Process

It is the responsibility of line managers to provide continual feedback on an employee's performance and any unsatisfactory performance. This should be done so informally on a continual basis. Should the informal process not sufficiently address the unsatisfactory performance the following process will apply:

- 1 Where unsatisfactory performance is identified, the line manager will identify and document what specific performance is unsatisfactory. The line manager will then discuss the unsatisfactory performance with the CEO to determine whether it warrants formal action.
- 2 The line manager will invite the employee to a meeting to outline the specific performance concerns and give the employee an opportunity to respond. If the employee can provide an explanation or reasonable mitigating circumstances for the unsatisfactory performance, this may end the performance management process. If not, the process will continue.
- 3 The line manager will confirm in writing to the employee that they are under formal performance management.
- 4 The line manager will meet again with the employee to determine a written Performance Improvement Plan. The Plan will provide an opportunity for the employee to address their unsatisfactory performance and allow the parties to plan how to bring the performance of the employee up to the required level. In creating the Plan, consideration should be given to what support mechanisms are required for the employee to improve their performance to the required level. Examples of support mechanisms include, but are not limited to:
 - (a) coaching and mentoring;
 - (b) attendance at a training course or workshop; or

- (c) an arrangement for time off work and/or the provision of the details of the Employee Assistance Provider where the employee advises that personal events/issues are affecting their performance.
- 5 The line manager will establish reasonable timeframes, which generally would not exceed six months from the date of the performance management commences, for the employee to achieve the required levels of performance.
- 6 The line manager and employee will meet on a regular basis to review the Performance Improvement Plan and assess if the employee is meeting the required performance standards.
- 7 At the expiration of the timeframes set by the line manager, a review meeting will be held with the employee to assess whether the employee has achieved the required levels of performance.
- 8 If the employee has achieved the required levels of performance, the performance management process will cease.
- 9 If the performance of the employee is still unsatisfactory, then disciplinary action may be taken. This disciplinary action may include termination of employment.
- 10 At any stage of the performance management process, should the actions or unsatisfactory performance of the employee be considered sufficiently serious, disciplinary action may be taken without completing the entire Performance Improvement Plan.

Disciplinary Action

At any stage of the performance management process, disciplinary action may be taken.

Confidentiality

The parties to the performance management process will:

- ~ maintain confidentiality throughout the performance management process; and
- ~ keep documentation produced during the performance and unsatisfactory performance process secure as part of official **Shire of Murchison** records.

Variation to this Policy

This policy may be cancelled or varied from time to time. All the **Shire of Murchison**'s employees will be notified of any variation to this policy by the normal correspondence method.

3.7 Sexual Harassment

Well-being

Civic Leadership

Objectives

To outline Councils commitment for an environment which is free from sexual harassment.

Statement

Council strongly supports the concept that every employee, Councillor and member of the public employed or engaged in business with the Council, has a right to do so in an environment which is free from sexual harassment and the Council is committed to providing such an environment.

Council considers sexual harassment to be an unacceptable form of behaviour, which will not be tolerated and recognizes that sexual harassment is unlawful.

Sexual harassment is any conduct of a sexual nature and/or sexist nature (whether physical, verbal or non-verbal) which is unwelcome and unsolicited and rejection of which may disadvantage a person in their employment or their life in general. The following examples may constitute sexual harassment when they are considered offensive to an employee Councillor or member of the general public.

- Subtle or explicit demands for sexual activities or molestation;
- Intrusive enquiries into a persons private life;
- Uninvited and unwelcome jokes that have a sexual and/or sexist undertone;
- Unsolicited leers and gestures of a sexual nature and the display within the workplace of sexually offensive material.

Council recognizes that sexual harassment can undermine health, performance and self-esteem of individuals and has the potential to create a hostile and intimidating environment. Council is therefore committed to any action which ensures the absence of sexual harassment in the workplace including training of the workforce and specific training for officers identified to deal with complaints. Appropriate discipline will be taken against any individual found to be engaging in such conduct.

Any complaints of sexual harassment made against another person associated with the Council will be viewed seriously, treated confidentially and thoroughly investigated by appropriately trained persons.

Any person making a claim of sexual harassment will be protected at all times. No transferring of staff or face to face meetings between the complainant and the person whose behaviour has been found to be unwelcome will occur without prior consent of both parties.

An employee whose health or work performance has been proven to be affected by sexual harassment will not have their employment status or conditions disadvantaged in any way.

- ~ Providing a workplace and safe system of work so employees are not exposed to hazards;
- ~ Providing employees with information, instruction, training and supervision to enable them to work in a safe manner;
- ~ Consulting and cooperating with employees and safety and health representatives in matters related to safety and health at work.

Alcohol and other drug usage becomes an occupational safety and health issue if a worker's ability to exercise judgment, coordination, motor control, concentration and alertness at the workplace is impaired.

The ***Shire of Murchison*** is committed to protecting its employees from the risks associated with drug and alcohol use in the workplace.

For the purposes of this policy, the term “employee/s” shall extend to cover contractors, volunteers and any person performing work for or with the **Shire of Murchison** in any capacity.

The Individual’s Responsibility

Under the *Occupational Safety and Health Act 1984* (the OSH Act), workers must take reasonable care of their own safety and health and not endanger the safety and health of others at the workplace. Employees are required to present themselves for work and remain, while at work, capable of performing their work duties safely. An employee who is under the influence of alcohol and/or drugs at the workplace, or is impaired, will face disciplinary action which may result in termination of employment.

Reporting Requirements

Employees must report to their employer any situation where they genuinely believe that an employee may be affected by alcohol and/or other drugs.

Drug Use on the Premises

The buying, taking, or selling of illegal drugs on **Shire of Murchison** premises is regarded as serious misconduct. Such behaviour will result in the employee being subject to the Disciplinary Procedure in Relation to Drug & Alcohol Use.

Employees who have been prescribed medication/drugs by a medical practitioner that could interfere with their ability to safely carry out their role must inform their manager or Human Resources and disclose any side effects that these medication/drugs may cause. In circumstances where an employee indicates the consumption of prescription or pharmacy drugs, the **Shire of Murchison** may request further information from the medical practitioner about the effects and proper usage of the prescription or pharmacy drugs being taken. The **Shire of Murchison** may direct the employee to stand down from their duties on full pay until it can be established that they are fit to undertake their duties.

Consumption of Alcohol on the Premises

Except in situations where the **Shire of Murchison** holds a function on the premises and alcohol is provided, employees must not bring in and/or consume alcohol in the workplace during working hours.

Managers’ Responsibilities - Consumption of Alcohol at Work Sponsored Functions

Team managers shall:

- ~ encourage their people to make alternative arrangements for transport to and from work prior to the function;
- ~ ensure that the following is made available - low alcohol beer, soft drinks, water, tea, coffee and food;
- ~ if the manager believes a person may be over the blood alcohol concentration 0.05 limit, assist the person with safe transport home (including contacting a family member); and
- ~ if the manager has to leave the function early, appoint a delegate to oversee the rest of the function.

Pre-Employment Medical Tests

As part of the recruitment selection criteria, preferred candidates for employment positions will be required to attend a medical assessment which includes drug and alcohol testing.

Individuals who refuse to take the test or who do not satisfy the requirements of the test will not be offered employment.

Threshold Levels for Alcohol & Drugs

A 0.00mg/ml blood alcohol level is expected of employees presenting for work at the Shire of Murchison. The threshold for drugs is in accordance with the Australian Standard AS/NZS 4308:2008 - Procedures for specimen collection and the detection and quantitation of drugs of abuse in urine, with 'not detected' being the standard required.

Self-Testing

An employee may self-test for blood alcohol concentration (BAC). A breathalyser is available in the workplace for this purpose. An employee who identifies that she or he has a BAC over 0.00 mg/ml can voluntarily take personal leave or unpaid leave. An employee will have this opportunity twice only and if a third self-test shows a BAC over 0.00 mg/ml, then they will be disciplined in accordance with the **Shire of Murchison** Disciplinary Procedure Relating to Drug & Alcohol Use (attached).

The advantage to self-testing is that the employee has two chances to take responsibility for their own fitness for work without ending up with a breach

Identification of Impairment & Testing

If the **Shire of Murchison** has reasonable grounds to believe that an employee is affected by drugs and/or alcohol it will take steps to address the issue.

Reasonable grounds may include (but are not limited to), where an employee is showing signs of poor coordination, has red or bloodshot eyes or dilated pupils, smells of alcohol, acts contrary to their normal behaviour, or otherwise appears to be affected by drugs and/or alcohol.

If the **Shire of Murchison** suspects that an employee is under the influence of drugs and/or alcohol it may pursue any or all of the following actions:

- ~ direct an employee to attend a medical practitioner and submit to a medical assessment to determine whether the employee is fit to safely perform their duties. (Due to the remote location of the workplace, this may require that assistance is given to the employee to attend the medical practitioner);
- ~ direct the employee to undergo on-the-spot drug and alcohol testing administered by a suitably qualified external party;
- ~ direct the employee to use the breathalyser in the presence of their Supervisor;
- ~ direct the employee to go home. The employee can take personal or unpaid leave in this instance.

A medical assessment may include a drug and/or alcohol test. Testing shall be conducted in accordance with the Australian Standard AS/NZS 4308:2008 - Procedures for specimen collection and the detection and quantitation of drugs of abuse in urine.

If an employee refuses to attend a medical examination or refuses to submit to an alcohol or drug test, or refuses to use the breathalyser, then the employee will be immediately suspended from duty without pay. Refusal to follow these directions constitutes a breach of this policy and will be regarded as a First Breach (refer attached Disciplinary Procedure).

An employee who returns a positive test for alcohol or drugs will be in breach of this policy. The following steps are to be taken:

- ~ The employee so tested and the supervisor will be informed of the result;
- ~ A disciplinary discussion will take place in accordance with the Disciplinary Procedure of the **Shire of Murchison**.

Education, Training & Awareness

Employees who recognise that they have a drink or drug problem, or that they are at risk of developing one, are encouraged to approach their Supervisor or the CEO so that they can be assisted to get the appropriate help.

The **Shire of Murchison** engages the services of an external Employee Assistance Provider who can provide the organisation's people with free and confidential counselling.

Drug/Alcohol Treatment Programs

Where an employee acknowledges that they have an alcohol or drug problem and are receiving help and treatment, the Local Government will provide assistance to the employee.

- ~ The Local Government will allow an employee to access any accrued personal or annual leave while they are undergoing treatment, and
- ~ The Local Government will take steps to return an employee to their employment position after completion of the treatment program, if practicable in the circumstances.

Where an employee acknowledges that they have an alcohol or drug problem and are receiving help and treatment, the line manager or members of senior management will review the full circumstances and agree on a course of action to be taken. This may include re-deployment to suitable alternative employment, or possible termination from employment if the treatment program has not been successful and the employee is unable to safely carry out the requirements of their role.

Consequences of Breaching this Policy

An employee engaged by the **Shire of Murchison** who breaches the provisions of this policy will be subject to the Disciplinary Procedure in Relation to Drug & Alcohol Use.

Variation to this Policy

This policy may be cancelled or varied from time to time. All the organisation's employees will be notified of any variation to this policy by the normal correspondence method.

Confidentiality

All issues pertaining to these matters shall be kept strictly confidential.

4.3 Purchasing

Well-being

Civic Leadership

1 Purchasing

The Shire of Murchison is committed to delivering the objectives, principles and practices outlined in this Policy, when purchasing goods, services or works to achieve the Shire's strategic and operational objectives.

This policy complies with the *Local Government (Functions and General) Regulations 1996 (The Regulations)*.

1.1 Objectives

The Shire's purchasing activities will achieve:

- ~ The attainment of best value for money;
- ~ Sustainable benefits, such as environmental, social, local economic and locational factors including the remote nature of the Shire in relation to potential suppliers being considered in the overall value for money assessment;
- ~ Consistent, efficient and accountable processes and decision-making;
- ~ Fair and equitable competitive processes that engage potential suppliers impartially, honestly and consistently;
- ~ Probity and integrity, including the avoidance of bias and of perceived and actual conflicts of interest;
- ~ Compliance with *the Local Government Act 1995, Local Government (Functions and General) Regulations 1996*, as well as any relevant legislation, Codes of Practice, Standards and the Shire/Town/City's Policies and procedures;
- ~ Risks identified and managed within the Shire's Risk Management framework;
- ~ Records created and maintained to evidence purchasing activities in accordance with the State Records Act and the Shire's Record Keeping Plan;
- ~ Confidentiality protocols that protect commercial-in-confidence information and only release information where appropriately approved.

1.2 Ethics & Integrity

The Shire's Code of Conduct applies when undertaking purchasing activities and decision making. Elected Members and employees must observe the highest standards of ethics and integrity and act in an honest and professional manner at all times.

1.3 Value for Money

Value for money is achieved through the critical assessment of price, risk, timeliness, environmental, social, economic and qualitative and locational factors including the remote nature of the Shire in

relation to potential suppliers to determine the most advantageous supply outcome that contributes to the Shire achieving its strategic and operational objectives.

The Shire will apply value for money principles when assessing purchasing decisions and acknowledges that the lowest price may not always be the most advantageous.

1.3.1 Assessing Value for Money

Assessment of value for money will consider:

- ~ All relevant Total Costs of Ownership (TCO) and benefits including transaction costs associated with acquisition, delivery, distribution, as well as other costs such as but not limited to holding costs, consumables, deployment, training, maintenance and disposal;
- ~ The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality. This includes but is not limited to an assessment of compliances, tenderers resources available, capacity and capability, value-adds offered, warranties, guarantees, repair and replacement policies, ease of inspection, ease of after sales service, ease of communications etc.
- ~ Financial viability and capacity to supply without the risk of default (competency of the prospective suppliers in terms of managerial and technical capabilities and compliance and where applicable performance history);
- ~ The element of competition by obtaining a sufficient number of competitive quotations wherever practicable and in context of the remote nature of the Shire in relation to potential suppliers consistent with this Policy;
- ~ The safety requirements and standards associated with both the product design and the specification offered by suppliers and the evaluation of risk arising from the supply, operation and maintenance;
- ~ The environmental, economic and social benefits arising from the goods, services or works required, including consideration of these benefits in regard to the supplier's operations, in accordance with this Policy and any other relevant Shire Policy; and
- ~ Providing opportunities for businesses within the Shire's boundaries to quote wherever possible.

1.4 Purchasing Thresholds and Practices

The Shire must comply with all requirements, including purchasing thresholds and processes, as prescribed within the Regulations, this Policy and associated purchasing procedures in effect at the Shire.

1.4.1 Policy Purchasing Value Definition

Purchasing value for a specified category of goods, services or works is to be determined upon the following considerations:

- ~ Exclusive of Goods and Services Tax (GST); and
- ~ Where a contract is in place or proposed, the actual or expected value of expenditure over the full contract period, including all options to extend specific to a particular category of goods, services or works. OR
- ~ Where there is no existing contract arrangement, the Purchasing Value will be the estimated total expenditure for a category of goods, services or works over a one (1) year period. Where the supply category has a high risk of change i.e. to technology, specification, availability or the Shire's requirements (Regulation 12) the period may be extended to a maximum of 5 years.

The calculated estimated Purchasing Value will be used to determine the applicable threshold and purchasing practice to be undertaken.

1.4.2 Purchasing from Existing Contracts

The Shire will ensure that any goods, services or works required that are within the scope of an existing contract will be purchased under that contract.

1.4.3 Table of Purchasing Thresholds and Practices

This table prescribes Purchasing Value Thresholds and the applicable purchasing practices which apply to the Shire's purchasing activities:

Purchase Value Threshold (excl GST)	Purchasing Practice Required
Up to \$5,000	<ol style="list-style-type: none"> 1 Purchase directly from a supplier using a Purchasing or Corporate Credit Card issued by the Shire, OR 2 Purchase from a WALGA Preferred Supplier Arrangement; OR 3 Seek at least one (1) verbal or written quotation from a suitable supplier; OR 4 Purchase from a Panel of Pre-Qualified Suppliers relevant to the required purchasing category. <p>The rationale for the procurement decision should be documented and recorded in accordance with the Shire Records Management Policy.</p> <p>An official purchase order should be raised for all such purchases, unless a credit card has been used to pay for the goods and services.</p>
From \$5,001 and up to \$20,000	<ol style="list-style-type: none"> 1 Seek at least (2) verbal or written quotations from a WALGA Preferred Supplier Arrangement; OR 2 Seek at least two (2) verbal or written quotations from a suitable supplier; OR 3 Purchase from a Panel of Pre-Qualified Suppliers relevant to the required purchasing category. <p>The rationale for the procurement decision and price benchmarking activities undertaken for each procurement transaction should be documented and recorded in accordance with the Shire Records Management Policy.</p> <p>An official purchase order should be raised for all such purchases, unless a credit card has been used to pay for the goods and services.</p>
From \$20,001 and up to \$50,000	<ol style="list-style-type: none"> 1 Seek at least (2) verbal or written quotations from a WALGA Preferred Supplier Arrangement; OR 2 Seek at least two (2) written quotation from a suitable supplier; OR 3 Purchase from a Panel of Pre-Qualified Suppliers relevant to the required purchasing category. <p>The rationale for the procurement decision and price benchmarking activities undertaken for each procurement transaction should be documented and recorded in accordance with the Shire Records Management Policy.</p> <p>An official purchase order should be raised for all such purchases, unless a credit card has been used to pay for the goods and services.</p>

Over \$150,000	<ol style="list-style-type: none"> 1 Seek at least three (3) written quotations from a WALGA Preferred Supplier Arrangement and / or and / or another tender exempt arrangement; OR 2 Seek at least three (3) written quotations from a Panel of Pre-Qualified Suppliers relevant to the required purchasing category; OR

	<p>3 Conduct a Public Request for Tender process in accordance with the Local Government Act 1995 and relevant Shire Policy requirements.</p> <p>The purchasing decision is to be based upon the supplier's response to:</p> <ul style="list-style-type: none"> ~ a specification of the goods, services or works (for a tender exempt process including the WALGA Preferred Supplier Arrangement); or a detailed specification for the open tender process; and ~ pre-determined evaluation criteria that assesses all best and sustainable value considerations. <p>An official purchase order or contract should be raised for all such purchases.</p>
Emergency Purchases (Within Budget)	Must be approved by the President or by the Chief Executive Officer under delegation and reported to the next available Council Meeting.
Emergency Purchases (Not Included in Budget)	<p>Only applicable where, authorised in advance by the President in accordance with s.6.8 of the <i>Local Government Act 1995</i> and reported to the next available Council Meeting.</p> <p>Where the Shire has an established Panel of Pre-Qualified Suppliers relevant to the required purchasing category, the emergency supply must be obtained from the Panel suppliers.</p> <p>If however, no member of the Panel of Pre-qualified Suppliers or a suitable supplier from WALGA Preferred Supplier Arrangement is available, then the supply may be obtained from any supplier capable of providing the emergency purchasing requirement, and to the extent that it is reasonable in context of the emergency requirements, with due consideration of best and sustainable consideration.</p>
WALGA Services (excluding Preferred Supplier Program)	For the purchasing of WALGA Services, a minimum of one (1) written quotation is to be sought and appropriately recorded. Recording is to be in accordance with the threshold levels outlined above. Confirmed via Purchase Order or Contract/Agreement.
Insurance Services	<p>LGIS Services are provided as part of a mutual, where WALGA Member Local Governments are the owners of LGIS. Therefore, obtaining insurance services from LGIS is not a procurement activity and is not subject to this Policy.</p> <p>The Council may however resolve to seek quotations from other insurance suppliers and this activity will be subject to the above listed Purchase Value Thresholds.</p>

1.4.4 Exemptions

An exemption from the requirement to publicly invite tenders may apply when the purchase is:

- ~ obtained from a pre-qualified supplier under the WALGA Preferred Supplier Arrangement or other suppliers that are accessible under another tender exempt arrangement.
- ~ from a pre-qualified supplier under a Panel established by the Shire;
- ~ from a Regional Local Government or another Local Government;
- ~ acquired from a person/organisation registered on the WA Aboriginal Business Directory, as published by the Small Business Development Corporation, where the consideration under contract is worth \$250,000 or less (exc GST) and represents value for money;
- ~ acquired from an Australian Disability Enterprise and represents value for money;
- ~ the purchase is authorised under action by Council under delegated authority;
- ~ within 6 months of no tender being accepted;
- ~ where the contract is for petrol, oil, or other liquid or gas used for internal combustion engines; or
- ~ the purchase is covered by any of the other exclusions under Regulation 11 of the *Regulations*.

1.4.5 Inviting Tenders Under the Tender Threshold

The Shire may determine to invite Public Tenders, despite the estimated Purchase Value being less than the \$150,000 threshold.

This decision will be made after considering:

- ~ Whether the purchasing requirement can be met through the WALGA Preferred Supplier Program or any other tender exemption arrangement; and
- ~ Any value for money benefits, timeliness, risks; and
- ~ Compliance requirements.

A decision to invite Tenders, though not required to do so, may occur where an assessment has been undertaken and it is considered that there is benefit from conducting a publicly accountable and more rigorous process. In such cases, the Shire's tendering procedures must be followed in full.

1.4.6 Other Procurement Processes

1.4.6.1 Expressions of Interest

Expressions of Interest (EOI) are typically considered in situations where the project is of a significant value or contains significant complexity of project delivery that may solicit responses from a considerable range of industry providers.

In these cases, the Shire may consider conducting an EOI process, preliminary to any Request for Tender process, where the purchasing requirement is:

- ~ Unable to be sufficiently scoped or specified;
- ~ Open to multiple options for how the purchasing requirement may be obtained, specified, created or delivered;
- ~ Subject to a creative element; or
- ~ To establish a procurement methodology that allows for an assessment of a significant number of tenderers leading to a shortlisting process based on non-price assessment.

All EOI processes are conducted as a public process and similar rules to a Request for Tender apply. However, the EOI should not seek price information from respondents, seeking qualitative and other non-price information only. All EOI processes should be subsequently followed by a Request for Tender through an invited process of those shortlisted under the EOI.

1.4.6.2 Request for Proposal

As an alternative to a Request for Tender, the Shire may consider conducting a Request for Proposal where the requirements are less known, or less prescriptive and detailed. In this situation, the Request For Proposal would still be conducted under the same rules as for a Request For Tender but would seek responses from the market that are outcomes based or that outline solutions to meet the requirements of the Shire.

1.4.7 Emergency Purchases

An emergency purchase is defined as an unanticipated purchase which is required in response to an emergency situation as provided for in the Act. In such instances, quotes and tenders are not required to be obtained prior to the purchase being undertaken.

Time constraints are not a justification for an emergency purchase. Every effort must be made to anticipate purchases in advance and to allow sufficient time to obtain quotes and tenders, whichever may apply.

1.4.8 Sole Source of Supply

A sole source of supply arrangement may only be approved where the:

- ~ Purchasing value is estimated to be over \$5,000; and
- ~ purchasing requirement has been documented in a detailed specification; and

- ~ specification has been extensively market tested and only one potential supplier has been identified as being capable of meeting the specified purchase requirement; and
- ~ market testing process and outcomes of supplier assessments have been documented, inclusive of a rationale for why the supply is determined as unique and cannot be sourced through more than one supplier.
- ~ A sole source of supply arrangement will only be approved for a period not exceeding three (3) years. For any continuing purchasing requirement, the approval must be re-assessed before expiry to evidence that a Sole Source of Supply still genuinely exists.

1.4.9 Anti-Avoidance

The Shire will not conduct multiple purchasing activities with the intent (inadvertent or otherwise) of "splitting" the purchase value or the contract value, avoiding a particular purchasing threshold or the need to call a Public Tender. This includes the creation of two or more contracts or creating multiple purchase order transactions of a similar nature.

Utilising rolling contract extensions at the end of a contract term without properly testing the market or using a Tender exempt arrangement, will not be adopted as this would place this Local Government in breach of the Regulations (Regulation 12).

The Shire will conduct regular periodic analysis of purchasing activities within supply categories and aggregating expenditure values in order to identify purchasing activities which can be more appropriately undertaken within the Purchasing Threshold practices detailed in clause 1.4.3 above.

2 Sustainable Procurement

The Shire is committed to implementing sustainable procurement by providing a preference to suppliers that *demonstrate* sustainable business practices (social advancement, environmental protection and local economic benefits).

The Shire will embrace Sustainable Procurement by applying the value for money assessment to ensure that wherever possible our suppliers demonstrate outcomes which contribute to improved environmental, social and local economic outcomes. Sustainable Procurement can be demonstrated as being internally focussed (i.e. operational environmental efficiencies or employment opportunities and benefits relating to special needs), or externally focussed (i.e. initiatives such as corporate philanthropy).

Requests for Quotation and Tenders will include a request for information from Suppliers regarding their sustainable practices and/or demonstrate that their product or service offers enhanced sustainable benefits.

2.1. Local Economic Benefit

The Shire encourages the development of competitive local businesses within its boundary first, and second within its broader region. As much as practicable, the Shire will:

- ~ where appropriate, consider buying practices, procedures and specifications that do not unfairly disadvantage local businesses;
- ~ consider the local economic factors including the remote nature of the Shire in relation to potential purchasers;
- ~ consider indirect benefits that have flow on benefits for local suppliers (i.e. servicing and support);
- ~ ensure that procurement plans address local business capability and local content;
- ~ explore the capability of local businesses to meet requirements and ensure that Requests for Quotation and Tenders are designed to accommodate the capabilities of local businesses;
- ~ avoid bias in the design and specifications for Requests for Quotation and Tenders – all Requests must be structured to encourage local businesses to bid; and
- ~ provide adequate and consistent information to local suppliers.

To this extent, a qualitative weighting will be included in the evaluation criteria for quotes and Tenders where suppliers are located within the boundaries of the Shire, or substantially demonstrate a benefit or contribution to the local economy or meeting the ongoing needs of the Shire. These criteria will relate to local economic benefits that result from Tender processes.

The Shire has adopted a Regional Price Preference Policy, which will be applied when undertaking all purchasing activities.

3 Panels of Pre-qualified Suppliers

3.1. Objectives

The Shire will consider creating a Panel of Pre-qualified Suppliers ("Panel") when a range of similar goods and services are required to be purchased on a continuing and regular basis.

Part of the consideration of establishing a panel includes:

- ~ there are numerous potential suppliers in the local and regional procurement related market sector(s) that satisfy the test of 'value for money';
- ~ the purchasing activity under the intended Panel is assessed as being of a low to medium risk;
- ~ the Panel will streamline and will improve procurement processes; and
- ~ the Shire has the capability to establish a Panel and manage the risks and achieve the benefits expected of the proposed Panel through a Contract Management Plan.

3.2. Establishing and Managing a Panel

If the Shire decides that a Panel is to be created, it will establish the panel in accordance with the Regulations.

Panels will be established for one supply requirement, or a number of similar supply requirements under defined categories. This will be undertaken through an invitation procurement process advertised via a state-wide notice.

Panels may be established for a maximum of three (3) years. The length of time of a Local Panel is decided with the approval of the CEO.

Evaluation criteria will be determined and communicated in the application process by which applications will be assessed and accepted.

In each invitation to apply to become a pre-qualified supplier, the Shire will state the expected number of suppliers it intends to put on the panel.

If a Panel member leaves the Panel, the Shire will consider replacing that organisation with the next ranked supplier that meets/exceeds the requirements in the value for money assessment – subject to that supplier agreeing. The Shire will disclose this approach in the detailed information when establishing the Panel.

A Panel contract arrangement needs to be managed to ensure that the performance of the Panel Contract and the Panel members under the contract are monitored and managed. This will ensure that risks are managed and expected benefits are achieved. A Contract Management Plan should be established that outlines the requirements for the Panel Contract and how it will be managed.

3.3. Distributing Work Amongst Panel Members

To satisfy Regulation 24AD(5) of the Regulations, when establishing a Panel of pre-qualified suppliers, the detailed information associated with each invitation to apply to join the Panel will prescribe one of the following as to whether the Shire intends to:

- ~ obtain quotations from each pre-qualified supplier on the Panel with respect to all discreet purchases; or
- ~ purchase goods and services exclusively from any pre-qualified supplier appointed to that Panel, and under what circumstances; or
- ~ develop a ranking system for selection to the Panel, with work awarded in accordance with the Regulations.

In considering the distribution of work among Panel members, the detailed information will also prescribe whether:

- ~ each Panel member will have the opportunity to bid for each item of work under the Panel, with pre-determined evaluation criteria forming part of the invitation to quote to assess the suitability of the supplier for particular items of work. Contracts under the pre-qualified panel will be awarded on the basis of value for money in every instance; or
- ~ work will be awarded on a ranked basis, which is to be stipulated in the detailed information set out under Regulation 24AD(5)(f) when establishing the Panel. The Shire will invite the highest ranked Panel member, who is to give written notice as to whether to accept the offer for the work to be undertaken. Should the offer be declined, an invitation to the next ranked Panel member is to be made and so forth until a Panel member accepts a Contract. Should the list of Panel members invited be exhausted with no Panel member accepting the offer to provide goods/services under the Panel, the Shire may then invite suppliers that are not pre-qualified under the Panel, in accordance with the Purchasing Thresholds stated in section 5.5 of this Policy. When a ranking system is established, the Panel will not operate for a period exceeding 12 months.

In every instance, a contract must not be formed with a pre-qualified supplier for an item of work beyond 12 months, which includes options to extend the contract.

3.4. Purchasing from the Panel

The invitation to apply to be considered to join a panel of pre-qualified suppliers must state whether quotations are either to be invited to every Panel member (within each category, if applicable) of the Panel for each purchasing requirement, whether a ranking system is to be established, or otherwise.

Each quotation process, including the invitation to quote, communications with Panel members, quotations received, evaluation of quotes and notification of award communications must all be made through eQuotes (or other nominated electronic quotation facility).

Each quotation process, including the invitation to quote, communications with Panel members, quotations received, evaluation of quotes and notification of award communications must all be captured on the Shire's electronic records system. A separate file is to be maintained for each quotation process made under each Panel that captures all communications between the Shire and Panel members.

4 Purchasing Policy Non-Compliance

Purchasing Activities are subject to financial and performance audits, which review compliance with legislative requirements and also compliance with the Shire's policies and procedures.

A failure to comply with the requirements of this policy will be subject to investigation, with findings to be considered in context of the responsible person's training, experience, seniority and reasonable expectations for performance of their role.

Where a breach is substantiated it may be treated as:

- ~ an opportunity for additional training to be provided;
- ~ a disciplinary matter, which may or may not be subject to reporting requirements under the Public Sector Management Act 1994;
- ~ misconduct in accordance with the Corruption, Crime and Misconduct Act 2003.

5 Record Keeping

All purchasing activity, communications and transactions must be evidenced and retained as local government records in accordance with the State Records Act 2000 and the Shire/Town/City's Record Keeping Plan. This includes those with organisations involved in a tender or quotation process, including suppliers.

4.4 Regional Price Preference

Well-being

Social

Objective

To promote local business partnerships within the Shire of Murchison by giving preferential consideration to regional suppliers in the procurement of goods and/or services.

Details

Definitions

In this policy the following words have the following meanings:

- 1 For the purpose of this Policy, the “Region” is specified as the geographical area which comprises the whole of the Shire of Murchison.
- 2 A supplier of goods or services who submits a tender is regarded as being a regional tenderer if —
 - (a) that supplier has been operating a business continuously out of premises in the region for at least 6 months; or
 - (b) some or all of the goods or services are to be supplied from regional sources.

Although goods or services that form a part of a tender submitted by a tenderer (who is a regional tenderer by virtue of definition 2(b)) may be —

- (a) wholly supplied from regional sources; or
- (b) partly supplied from regional sources, and partly supplied from non-regional sources,

only those goods or services identified in the tender as being from regional sources may be included in the discounted calculations that form a part of the assessments of a tender when a regional price preference policy is in operation.

Policy Application

The Price Preference Policy will apply to all tenders and quotations invited by the Shire of Murchison for the supply of goods and services and construction (building) services, unless Council resolves that this Policy does not apply to a particular tender or quotation.

Levels of Preference to be Applied Under This Policy

For comparative purposes as part of the consideration a preference will be given to a tenderer who includes regional sources in the submission by assessing the tender submission as if the price bids were as prescribed below:

- (a) Goods and services reduced by 5%, up to a maximum price reduction of \$50,000
- (b) Construction (building) services, reduced by 5%, up to a maximum price reduction of \$50,000;
or
- (c) Goods and or services (including construction (building) services) up to 10% - where the contract is for goods or services, up to a maximum price reduction of \$500,000, if the local government is seeking tenders for the provision of those goods or services for the first time, due to those goods or services having been, until then, undertaken by the local government.

Competitive Purchasing

Whilst price is a consideration in the provision of goods and/or services it is only one aspect of the tender evaluation process. Value for money principles, as described section 4 of the Shire of Murchison Purchasing Policy will be employed by assessing the price component in conjunction with the tender selection criteria and requirements.

The tender that is determined to be both cost effective and advantageous to the Shire of Murchison will be the most likely to be accepted.

For the purchase of goods and/or services outside of the tender process, consideration should be given to Council's desire to purchase from local suppliers, where possible. The decision to purchase from a local supplier is to be left to the responsible officer's judgement, ensuring that the Shire's policies and guidelines are observed.

General Financial Hardship

This space intentionally left blank

COVID-19 Financial Hardship

1 Specific Objective

To put as process in place a means to support persons who from time to time face financial hardship during the COVID-19 Period where a person is unable to pay rates and service charges without affecting their ability to meet their basic living needs, or the basic living needs of their dependants.

2 Background

This policy arose from the need to give effect to our commitment to support the whole community to meet the unprecedented challenges arising from the COVID19 pandemic.

3 Application

This policy applies to outstanding rates and service charges as at the date of adoption of this policy; and for rates and service charges levied by Council

This Policy is intended to ensure that we offer fair, equitable, consistent and dignified support to ratepayers suffering hardship, while treating all members of the community with respect and understanding.

It is a reasonable community expectation, as we deal with the effects of the pandemic that those with the capacity to pay rates will continue to do so. For this reason the Policy is not intended to provide rate relief to ratepayers who are not able to evidence financial hardship and the statutory provisions of the *Local Government Act 1995* (Act) and *Local Government (Financial Management) Regulations 1996* will apply.

4 Guidelines

4.1 Payment difficulties, hardship and vulnerability

Payment difficulties, or short term financial hardship, occur where a change in a person's circumstances result in an inability to pay a rates or service charge debt.

Financial hardship occurs where a person is unable to pay rates and service charges without affecting their ability to meet their basic living needs, or the basic living needs of their dependants. Council recognises the likelihood that COVID19 will increase the occurrence of payment difficulties, financial hardship and vulnerability in our community. This policy is intended to apply to all ratepayers experiencing financial hardship regardless of their status, be they a property owner, tenant, business owner etc.

4.2 Anticipated Financial Hardship

The Shire recognise that many ratepayers are already experiencing financial hardship due to COVID-19. We respect and anticipate the probability that additional financial difficulties will arise when their rates are received.

The Shire will write to ratepayers at the time their account falls into arrears, to advise them of the terms of this policy and encourage eligible ratepayers to apply for hardship consideration. Where possible and appropriate, we will also provide contact information for a recognised financial counsellor and/or other relevant support services.

4.3 Financial Hardship Criteria

While evidence of hardship will be required, we recognise that not all circumstances are alike. We will take a flexible approach to a range of individual circumstances including, but not limited to, the following situations:

- Recent unemployment or under-employment
- Sickness or recovery from sickness
- Low income or loss of income
- Unanticipated circumstances such as caring for and supporting extended family

Ratepayers are encouraged to provide any information about their individual circumstances that may be relevant for assessment. This may include demonstrating a capacity to make some payment and where possible, entering into a payment proposal. We will consider all circumstances, applying the principles of fairness, integrity and confidentiality whilst complying with our statutory responsibilities.

4.4 Payment Arrangements

Payment arrangements facilitated in accordance with Section 6.49 of the Act are of an agreed frequency and amount. These arrangements will consider the following:

- That a ratepayer has made genuine effort to meet rate and service charge obligations in the past;
- The payment arrangement will establish a known end date that is realistic and achievable;
- The ratepayer will be responsible for informing the Shire of any change in circumstance that jeopardises the agreed payment schedule.

4.5 Interest Charges

COVID-19 Period

A ratepayer that meets the Financial Hardship Criteria will not attract interest or penalty charges on rates / service charge debt ~~in 2020/21~~ 2021/22, subject to the period of time that the *Local Government (COVID-19 Response) Ministerial Order 2020* remains effective

In the case of severe financial hardship, the Shire may consider writing off interest applicable to the Emergency Services Levy and/or interest previously accrued on rates and service charge debts.

4.6 Deferment of Rates

Deferment of rates may apply for ratepayers who have a Pensioner Card, State Concession Card or Seniors Card and Commonwealth Seniors Health Care Card registered on their property. The deferred rates balance:

- remains as a debt on the property until paid;
- becomes payable in full upon the passing of the pensioner or if the property is sold or if the pensioner ceases to reside in the property;
- may be paid at any time, BUT the concession will not apply when the rates debt is subsequently paid (deferral forfeits the right to any concession entitlement); and
- does not incur penalty interest charges.

4.7 Debt Recovery

COVID-19 Period

We will suspend our debt recovery processes whilst negotiating a suitable payment arrangement with a debtor. Where a debtor is unable to make payments in accordance with the agreed payment plan and the debtor advises us and makes an alternative plan before defaulting on the 3rd due payment, then we will continue to suspend debt recovery processes.

Where a ratepayer has not reasonably adhered to the agreed payment plan, then for any Rates and Service Charge debts that remain outstanding on 1 July 2022, we will offer the ratepayer one further opportunity of adhering to a payment plan that will clear the total debt by the end of the 2022/2023 financial year.

Rates and service charge debts that remain outstanding at the end of the 2022/23 financial year, will then be subject to the rates debt recovery procedures prescribed in the *Local Government Act 1995*.

4.8 Review

We will establish a mechanism for review of decisions made under this policy and advise the applicant of their right to seek review and the procedure to be followed.

4.9 Communication and Confidentiality

We will maintain confidential communications at all times, and we undertake to communicate with a nominated support person or other third party at your request.

We will advise ratepayers of this policy and its application, when communicating in any format (ie verbal or written) with a ratepayer that has an outstanding rates or service charge debt.

We recognise that applicants for hardship consideration are experiencing additional stressors, and may have complex needs. We will provide additional time to respond to communication and will communicate in alternative formats where appropriate. We will ensure all communication with applicants is clear and respectful.

4.6 Asset Management

Well-being

Civic Leadership

Overview

This policy covers all service delivery of the Shire and relates specifically to the management of infrastructure assets under the care, control and responsibility of the Shire that are used to deliver services or the infrastructure management regime of third parties where the Shire facilitates service delivery by a third party.

Service delivery may be via the provision of Shire owned Infrastructure Assets, in which case assets are to be optimally managed to support financially sustainable service delivery outcomes for the lowest whole of life cost.

Alternatively service delivery may be via third party, in which case the Shire has a role in ensuring third party Infrastructure Assets are optimally provided and managed to achieve financially sustainable service delivery outcomes without the need to draw on Shire resources.

The policy also assists the Shire in compliance with the provisions of the State Government's Integrated Planning and Reporting Framework by having an integrated approach to Planning for the Future.

Objectives

The objective of this policy is to ensure that the Shire of Murchison has sufficient structure, systems, processes, resources and organisational commitment in place to deliver service outcomes on a financially sustainable basis.

Details

Scope and Limitations

This policy covers all service delivery of the Shire and relates specifically to the management of infrastructure assets under the care, control and responsibility of the Shire that are used to deliver services or the infrastructure management regime of third parties where the Shire facilitates service delivery by a third party. This may include but is not limited to:

- ~ Government Agencies;
- ~ Private Enterprise; and
- ~ Contractors.

Background

The community relies on the Shire to deliver services. The Shire has finite resources and limited income streams that can be targeted to fund service delivery. The Shire must ensure that service delivery is well targeted and aligns with the Community's aspirations identified via the development of the Strategic Community Plan.

To ensure that scarce resources are optimally allocated, it is important informed decisions are made when considering the acquisition, ongoing ownership, management and disposal of infrastructure assets. The Shire also needs to continuously consider whether it needs to provide and / or own assets in order to deliver services or whether it can simply facilitate the provision of the service by a third party, i.e. non asset ownership service delivery.

To assist with making informed decisions in relation to this issue, the Shire will put in place the following:

- ~ A Strategic Asset Management Framework that is consistent with National Standards in Asset Management and Long Term Financial Planning (Nationally Consistent Approach);
- ~ Maintain a contemporary Asset Management Policy that is regularly reviewed (this Policy);
- ~ Develop, maintain and regularly review an Asset Management Improvement Strategy that clearly articulates a sustainable path for continuous improvement and identifies resources to implement via the budget process;
- ~ Develop, maintain and regularly review Asset Management Plans that cover all key Infrastructure Asset Classes;
- ~ Asset Management Plans will document the Council adopted level of service that applies to Infrastructure Assets which will be derived from Service Level Plans and the community engagement processes used to develop the Strategic Community Plan; and
- ~ Ensure processes are in place to train Councillors and Officers in key aspects of asset management and long term financial planning.

Guiding Statement

Key Commitments

Prior to making a decision to either:

- ~ Deliver a new service;
- ~ Vary the current level of service (up or down); or
- ~ Cease the delivery of a service;

The following key commitments are to be adhered to:

- ~ The need for the service will be reviewed;
- ~ The service must align with the Strategic Community Plan and fit within the Corporate Business Plan (A Capital evaluation process is to be developed and utilised to assess this);
- ~ Options for the Shire to facilitate delivery of the service by a third party are to be identified and considered;
- ~ If the service is needed and a third party cannot deliver the service, infrastructure assets that are required to deliver the service will be identified along with:
 - o The whole of life cost of delivering the service; and
 - o The whole of life planning, maintenance, operation, renewal and disposal cost of the asset required to support the service delivery.
- ~ The service delivery and asset whole of life costs must fit within the 10 Year Long Term

Financial Plan;

- ~ Options to renew infrastructure assets before acquiring a new infrastructure asset are to be considered;
- ~ Options to rationalise assets will be considered; and
- ~ The CEO will be responsible for the development of the systems and processes to comply with the above key commitments.

Linkage to Integrated Planning and Reporting Framework (IPR)

The Shire has a corporate business plan linking to long term financial planning that integrates asset management and specific Council plans with the IPR Framework.

Linkage to Other Council Policy

Nil.

Responsibility and Reporting

Council

Council is responsible for approving (including amendments to) the following documents:

- ~ Asset Management Policy (AM Policy);
- ~ Asset Management Improvement Strategy (AM Improvement Strategy); and
- ~ Asset Management Plans (AM Plans).

Council is also responsible for ensuring (upon recommendation of the CEO) that resources are allocated to achieve the objectives of the above documents.

In adopting asset management plans, Council is also to determine the Level of Service for each asset class.

Chief Executive Officer (CEO)

The Chief Executive Officer is responsible for ensuring that systems are in place to develop, maintain and regularly review Council's AM Policy, AM Improvement Strategy and AM Plans. The CEO reports to Council on all matters relating to Asset Management.

The CEO is also responsible for monitoring the implementation of Asset Management across the organisation. The CEO will ensure that strategies are put in place to remove barriers to the successful implementation of Asset Management.

Furthermore, the CEO is responsible for ensuring that Council's AM Improvement Strategy is achieved and that AM plans are prepared and maintained in line with Council's Policy on Asset Management. Where aspects of Council's AM Policy, AM Improvement Strategy or AM Plans are not being achieved or adhered to, the CEO is responsible for taking corrective action.

The CEO is responsible for resource allocation (from Council approved resources) associated with achieving Council's Asset Management Improvement Strategy.

4.7 Fraud Control

Well-being

Civic Leadership

Objectives

The purpose of this policy is to demonstrate and communicate the Council's commitment to the prevention, deterrence, detection and investigation of all forms of fraud and to establish guidelines for the writing off of debts and waiving of fees and charges.

Details

Fraud Control

As fraud constitutes a significant risk to any organisation, it is appropriate that a culture of ethical conduct be developed to recognise and avoid fraud and to deal appropriately with any cases of fraud.

Fraud can lead to financial loss, bad publicity for the Shire and loss of public confidence in the way that public money and other resources are being used. It is therefore important that the Shire has robust systems and procedures in place to ensure that the risk of impropriety is minimised, as far as possible, that there is a process in place to enable fraud to be adequately reported and that where instances of fraud do occur, there is a prompt and effective response to them.

Fraud

Fraud is defined as “wrongful or criminal deception intended to result in financial or personal gain”. Fraud is a deliberate act by an individual or group of individuals and is therefore always intentional and dishonest.\

Internal Fraud refers to fraudulent acts undertaken by Councillors and employees. Examples of such fraud would include: falsification of expenses and wages claims, theft of cash and alteration of records to conceal the deficiency, falsification of invoices for payment, failure to account for monies collected, falsification of timesheets and time cards, dealing inappropriately with benefits claims of friends or relatives.

It is also worth noting that there may, in some instances, be potential for those in positions of trust within the Shire to perpetrate frauds against third parties. The Shire has the responsibility for the integrity of staff employed in such positions of trust.

External Fraud is defined as fraud committed against the Shire by persons outside of the organisation. Examples include false statements in applications for Shire programs and applications for grants or false invoices for goods or services.

Fraud and other similar irregularities includes, but is not limited to:

- ~ Forgery or alteration of cheques, invoices, computer records and other documents;
- ~ Any misappropriation of funds, securities, supplies or any other asset;
- ~ Any irregularity in the handling or reporting of money transactions;
- ~ Misappropriation of furniture, fixtures and equipment;
- ~ Seeking or accepting anything of material value from vendors, consultants or contractors doing business with the Shire;
- ~ Unauthorised use or misuse of Shire property, equipment, materials or records;
- ~ Any computer related activity involving the alteration, destruction, forgery or manipulation of data for fraudulent purposes or misappropriation of Council owned software;
- ~ Any claim for reimbursement of expenses that are not made for the exclusive benefit of Shire;
- ~ The intentional distortion of financial statements or other records by persons internal or external to the organisation which is carried out to conceal the misappropriation of assets or otherwise for gain;
- ~ Providing false or misleading information related to financial interests and disclosure statements;
- ~ Any similar or related irregularity.

Roles and Responsibilities

Councillors

Councillors have a duty to ensure that Shire assets are safeguarded from fraud and abuse and to ensure that Council's powers, duties and responsibilities are exercised in an open, fair and proper manner to the highest standards of probity.

These issues need to be borne in mind when considering reports, making decisions and scrutinising Council's activities.

Councillors should endorse and support all policies and measures taken to prevent, deter, detect and resolve instances, or suspected instances, of fraud throughout the Shire.

Chief Executive Officer

The Chief Executive Officer has primary responsibility for the proper management of the Shire's resources and the development and implementation of systems and practices to minimise the risk of fraud.

The Chief Executive Officer, under the Corruption, Crime and Misconduct Act 2003 must notify the Corruption and Crime Commission or the Public Sector commission if misconduct is suspected.

Senior Management Team Members

Members of the Senior Management Team established by the Chief Executive Officer are responsible for implementing fraud control initiatives and in particular:

- ~ Provide leadership, guidance, training and support to employees in preventing fraud and corruption;
- ~ Identify high fraud risk areas;
- ~ Participate in fraud and corruption risk assessment reviews which are presented to the Audit Committee to assess and provide assurance that the entity has appropriate processes and systems in place;
- ~ Monitor the continued operation of controls;
- ~ Conducting or coordinating investigations into allegations of fraud;

- ~ Complying with legislation and Shire policies and practices;
- ~ Ensuring staff understand their responsibilities through adequate communication, supervision, written procedures and job descriptions;
- ~ Responding positively to matters raised and advice given by internal and external audit.

Management need to be vigilant in guarding against fraud, be aware of any circumstances which may indicate that there may be a problem and report any such suspicions to the Chief Executive Officer or Deputy Chief Executive Officer for an independent investigation or advice.

In carrying out their responsibilities, all managers (and staff) should be conscious of the fact that they are spending public money collected through rates and taxes. This provides an extra responsibility not only to spend it economically and effectively but also fairly.

Staff

Staff are responsible for acting with honesty and integrity in all council activities and must:

- ~ Not use their position with the Shire to gain personal advantage or to confer undue advantage, or disadvantage, on any other person or entity.
- ~ Safeguard Shire assets against theft, waste or improper use.
- ~ Understand what behaviour constitutes fraud and / or corruption.
- ~ Familiarise themselves with and adhere to Council's policies and procedures.

Staff have a duty to make management aware of any concerns they have about the conduct of the Shire's affairs or the use of Shire assets and resources. Any matters raised by them should be taken seriously and properly investigated. Staff who suspect that fraud has occurred should advise their Line Supervisor, Manager or Director as soon as possible.

Internal Audit

Internal Audit has an important role in assisting management in the prevention and detection of fraud by:

- ~ Independently reviewing systems, procedures and controls to ensure that there are adequate safeguards to prevent, deter and detect fraud with particular attention being paid to the review of contracts and computer systems where there is potentially a significant risk;
- ~ Through specific audits and testing of systems, identifying areas of concern;
- ~ Responding to requests for advice from managers on controls to put in systems;
- ~ Independently investigating suspected frauds and irregularities and reporting conclusions to the Audit Committee, management and, where necessary, the Police;
- ~ Producing, and advising on the production, of rules, regulations and policies which deter fraud.

It is acknowledged that given limited staff numbers that this action may present some challenges

External Audit

External Auditors certify that the Shire's accounts represent a true and fair view of the Shire's financial position. In reaching this conclusion, they must satisfy themselves that control systems are sound and that measures are being taken to minimise the chances of fraud.

Induction Process

The elements of fraud and the responsibility of all staff to not participate in and report fraudulent activity will form part of Council's induction process.

Development of Fraud Control Plan

Council shall examine its exposure to fraud biennially and shall develop a fraud control plan which will be implemented over the following years.

Response to Allegations and Concerns

Allegations and concerns about fraudulent or corrupt activity may come from different sources e.g.

- ~ Members of the public, sometimes anonymously
- ~ Other local authorities
- ~ Councillors
- ~ Council managers or staff
- ~ Internal or external audit reviews

Allegations and concerns about fraudulent activity can be reported to the Chief Executive Officer, Directors, Managers and Line Supervisors and those persons making and/or raising allegations and concerns must be either willing to put this in writing and/or have supported evidence to avoid those persons who maliciously and knowingly create a false allegation.

Wherever these concerns come from they must be treated seriously and confidentiality will be respected as far as possible. A thorough investigation will be made of all concerns but the level of resources applied to this will be dependent on the nature of the concern e.g. sums or resources involved, sensitivity of the area, source of concern, evidence provided or available, risk inherent in that area.

For cases of internal fraud, investigations should be closely managed and documented in accordance with Shire procedures.

At all times confidentiality must be maintained and information disclosed only to those who need to know it, in order not to prejudice any disciplinary or criminal action.

Actions to be taken when Fraud is Uncovered or Suspected

Investigations into suspected fraudulent activity will be comprehensive and will be based on the principles of independence, objectivity and the rules of natural justice.

Investigations will be conducted by an appropriately skilled and experienced person who is independent of the area in which the alleged fraudulent conduct occurred.

Where there is sufficient evidence of fraud, or there is strong suspicion but internal investigations are unable to obtain further evidence required, the Police should be involved where it is considered in the "Council or public interest".

Determination of the "Council or public interest" will include factors such as the sums or resources involved, the strength of the evidence obtained or available, the potential cost to the Council of pursuing the matter, the sensitivity of the area concerned. Referral to the Police will be the normal course of action unless there is a strong case not to do so.

Where involvement of the Police is not appropriate, the strongest action possible should be taken. This may involve disciplinary action including dismissal and the recovery of any sums of money or resources misappropriated.

At the conclusion of any fraud investigation, systems and procedures will be reviewed and any remedial actions implemented, whether or not there was sufficient evidence to prove any wrongdoing.

Any remedial actions identified from this process shall be recorded in the Shire's Risk Register and allocated to the relevant manager through his/her Risk Plan.

Monitoring of remedial actions will be undertaken by the Shire's Internal Auditors on an annual basis.

A fraud, integrity and conduct register will be maintained by the Deputy Chief Executive Officer

Training

Training will be given to all staff in the principles of fraud, the reporting of fraud and the process involved in investigating suspected fraud.

Insurance

The Shire shall maintain a fidelity guarantee insurance policy that provides insurance against the risk of loss arising from internal fraudulent conduct.

5.2 Roadhouse Operations

Well-being

Social, Economic

Background

At the 25 February Meeting 2021 of Council, amongst other things, confirmed that the operation of the Murchison Oasis Roadhouse and Caravan Park be a Shire operation upon expiry of the existing sublease and acknowledged that, as part of the operation, the Roadhouse be viewed as a Shire operated entity: the rationale of which will be developed and eventually incorporated into this previously earmarked policy.

Preamble

Communities come together and set up community businesses to address challenges that they face together. These can be shops, farms, pubs or call centres, among many other types of business. What they all have in common is that they are accountable to their community and the profits they generate deliver positive local impact. Key features of a community business include:

Locally Based

They are based in a particular geographical place and service its needs.

Trading for the Benefit of the Local Community

They are businesses. Their income comes from things like renting out space in their buildings, trading as cafes, selling produce they grow or generating energy.

Accountable to the Local Community:

They are accountable to local people, for example, through a community shares offer that creates members who have a voice in the business's direction.

Broad Community Impact

They engage with a variety of different groups in their community and deliver goods and services for a range of different community needs. They may have a specific focus on certain groups, where this fits into the context of them also supporting the local community more widely. Their goods and services should respond to community needs.

The operation of the Murchison Oasis Roadhouse and Caravan Park meets all of these criteria as an integrated Council Operation.

Future policy and operational decisions as a community focused operation also need to be seen within the context of other Council / Community actions that Council has undertaken including; the provision of a free, weekly community freight collection service, adapting the Shire's fuel delivery contract to provide for local station access, fuel pricing at the roadhouse on a cost neutral basis over time and

maintaining the current approach of ensuring that Roadhouse facilities are kept up to a high standard regardless of current operating arrangements.

Objectives

To manage and operate the Murchison Oasis Roadhouse and Caravan Park with the aim of ensuring that Murchison Settlement is an attractive focal point that enables the Shire to function successfully and deliver a range of services that will underpin community, cultural and economic development within the Settlement and broader Shire.

As a not-for-profit organisation in a remote area, Council is committed to balancing the desire to make a commercial return with the aims of providing local support, local employment and tourism attraction benefits within a community operation.

- 3 Prices will be regularly reviewed and adjusted based on the cost of goods, periodic reviews of operational costs and sales figures, as well as prices that are charged elsewhere for similar goods and services.
- 4 Unless otherwise justified due to circumstances such as writing off stock or selling produce with limited shelf life, or as a special incentive offer prices charged, will be more than the cost of goods sold.
- 5 Subject to any local loyalty scheme approved by Council that may apply, prices charged will be uniform for all patrons.
- 6 Any surplus generated will be put back into the Roadhouse facilities, or other community development initiatives, as determined separately by Council.

Well-being

Economic

Objectives

As a not for profit organisation in a remote area the Shire, in owning and operating fuel facilities at the Murchison Oasis Roadhouse is committed to balancing the desires to make a commercial return with the need to provide local benefit when determining the price of fuel sold at the roadhouse.

Council aims for the Shire to operate these facilities at neither a profit nor loss over the medium to long term.

Application

Applies to the retail price for fuel sold at the Murchison Oasis Roadhouse

Details

Council will set the price of fuel facilities sold at the Murchison Oasis Roadhouse so that the price of fuel includes a percentage margin above the purchase price (including freight and GST) of newly delivered ULP or diesel.

This will be achieved through periodic reviews of operating and capital costs of the facilities with the % variation then reviewed and adjusted through an adopted variation to Councils the Fees and Charges Table

5.5 Community Garden

Well-being

Social

Background

The Murchison Shire Community Garden was first developed in the early 2000s. It was considered a better option than individual vegetable gardens on each residential lot as tenants come and go and not all are keen growers. A community garden provides an opportunity for interested community members to share an interest, knowledge, produce and management of the garden. The community chicken coop ties in with the garden and eggs are shared locally.

Council expenditure on the structure is minimal and not significant. With the infrastructure already there, it has much potential.

Objectives

- 1 To provide Council and the community with a framework for the management of the Murchison Shire Community Garden including the Chicken Coop
- 2 Promote the merits of our Murchison Shire Community Garden in building community relationships and food sustainability
- 3 Contribute to the education, health, and wellbeing of the local community
- 4 Develop a clear process and allocate necessary resources to support the Murchison Community Garden with a focus on encouraging self-management
- 5 Foster positive relationships and social interaction between members/volunteers in the Settlement and Council.

Details

Overall responsibility shall rest with the Chief Executive Officer with the Community Garden to operate within the following guidelines:

- 1 Membership is available to those persons residing within the Murchison Settlement on permanent or semi permanent basis, with the understanding that individuals agree to abide by the Community Garden policy and any operating requirements which may from time to time apply
- 2 All produce grown and distributed shall be on a 'not for sale' basis
- 3 Individuals shall register their interest and be allocated an allotment(s) for their own use
- 4 Create an arrangement allowing for new community members to have an allotment
- 5 Ensure the Murchison Community Garden remains herbicide and pesticide free
- 6 Establish a caretaker to oversee the operation

5.6 Community Paddock

Well-being

Social and Environmental

Background

The community paddock situated off Mulga Crescent has been established over time by individual residents at their own costs for the purposes of allowing individuals to house large animals that are unsuitable for residential allotments. In doing so it created an incentive for some staff to live at the Settlement.

As part of a review of a Murchison Settlement Masterplan it became apparent that the amenity, and overall environment, in and around the Settlement is considered elevated in importance, and that the existing operation of the community paddock requires review, with guidelines developed for its continued use.

Objectives

To set the conditions for the continued, limited, use for the Murchison Shire Community Paddock.

Details

Overall responsibility shall rest with the Chief Executive Officer with the Community Paddock to operate within the following guidelines:

- 1 The current fenced area shall remain fixed and not be expanded
- 2 One (1) horse per person with a maximum of 2 horses per household and 4 horses in total to be kept at any one time
- 3 The Community Paddock is for daytime use only. Horses must be kept stabled at night time.
- 4 All feed is to be bought in. No grazing of the natural bush is permitted.
- 5 Manure needs to be managed and stored in a manner that does not cause any environmental harm or create any nuisance.
- 6 Area to be kept clean and tidy including the removal of all rubbish and unnecessary wire
- 7 Upon the horse owner's retirement from the Settlement horses must be removed from the Settlement at the owner's expense
- 8 Non-compliance with these requirements may lead to permission to keep horses at the Settlement being withdrawn
- 9 Council accepts no responsibility for the horses but cruelty/neglect, as determined by the CEO, will not be tolerated and will constitute grounds for immediate removal of the animals

5.7 Community Memorial

Well-being

Social

Background

The existing Memorial Avenue consists of a number of memorial plaques located at the base of trees adjacent to the rear of the Council Office and Playground area. It was established some years ago for the purpose of providing an opportunity to erect a memorial to those persons that have historically lived and resided in the Murchison Shire. Historically all applications were considered on their merits by Council. On, or around, the 1990s the community was requested to provide details of potential new plaques, although this action does not appear to have been documented.

Council's intention always was that these plaques be a discreet and respectful recognition/memory of former long term Murchison residents and that these plaques didn't become a shrine (artificial flowers, crosses, wreaths etc).

In the meantime, Council has proceeded in continuing development of a cemetery (officially opened in May 1988) and is also developing a rammed earth memorial wall for this very purpose.

This policy formalises these intentions.

Objectives

To provide guidance for Council and the community in the consideration of requests for memorials to be erected within the Shire generally and specifically the Murchison Settlement.

Details

- 1 This policy shall apply to all memorials in the Murchison Settlement and on Council controlled land, including Shire roads/road reserves.
- 2 Upon adoption of this policy there will no further installations of memorials in the Murchison Settlement or on Shire roads/road reserves without the express approval of Council.
- 3 Existing community memorials may remain in place but there shall be no other tributes such as flowers, artificial flowers, crosses, wreaths etc placed with them.
- 4 New community memorials shall be by application to the Council and be placed on the Cemetery Wall in spaces provided for the purpose.
- 5 The following matters shall form part of the consideration for applications made under this policy:
 - (a) Historical nature and length of presence of the person or people's tenure within the Murchison Shire
 - (b) Whether the person or people also have a plot allocated or presence within the cemetery

(c) Spaces available

- 6 There shall be no provisions to reserve spaces on the memorial niche wall at the cemetery without the express approval of Council.
- 7 Council shall set fees and charges, and determine operational arrangements, for the installation of all community memorials.

6.1 Roads

Well-being

Economic and Environmental

Objectives

Murchison Shire is responsible for managing a large road network within the Shire and recognises that it needs to ensure a safe road network that is sustainably managed from a financial, environmental and cultural perspective.

Details

Technical Responsibility

Technical responsibility for road design, construction and maintenance rests with the Chief Executive Officer and Works Manager.

Use of Heavy Vehicle Combinations on Local Roads

The Chief Executive Officer is authorised by Council to consider and approve requests from operators:

- (a) to add or amend a road on a Restricted Access Vehicle Network, or
- (b) or a Restricted Local Access Period Permit,

on the condition that the application has been made in the prescribed manner to Main Roads Heavy Vehicle Services, in the first instance.

The CEO is to give due consideration to the condition of the road and other assets, such as grids and culverts, prior to forwarding approval to HVS, especially if the application is for a Restricted Local Access Period Permit, where Route Assessment Guidelines are not met.

The following conditions are to be included in all approvals:

- 1 Permit holders are to comply with Main Roads WA Operating Conditions for restricted vehicle access including mass, width and length limits, and configurations;
- 2 In the event that road closures are activated due to bad weather or for any other reason, all vehicle movements on the subject roads will cease until the road closures are lifted by the Shire of Murchison;
- 3 CA07 – All operators must carry the written approval from the LG authority permitting use of the road;
- 4 The following speed limits will generally apply
Unsealed open road 80 km / hour
Built up areas 50 km / hour or 10 km below the designated speed limit whichever is the lesser

Stock Grids

- 1 Where a pastoral fence adjoining a stock grid is not stock proof and has remained in a poor state of repair (or has been removed) for a period of 12 months or more, the CEO may commence the process to remove the grid;
- 2 The process is that the CEO will notify the lessee/landowner of Council's intention to remove the grid, allowing the lessee/landowner 30 days to respond. If the lessee/landowner objects, then the objection is to be referred to Council at the meeting immediately following receipt of the objection;
- 3 After consideration of the objection, if council decides that the grid is to be removed, then it can be removed by suitable contractors or by the Shire crew as soon as practical;
- 4 If a grid has been removed and the lessee/landowner later wishes to have a new grid installed, then the new grid should be at least 7.4 metres wide and should only be installed once fences have been fully rebuilt or a new fence constructed
- 5 This policy does not prevent agreement with any lessee/landowner to remove a grid at any time where advice has been received from the lessee/landowner in writing that the grid is no longer required. Council reserves the right to request a financial contribution from the applicant should they request a grid in a new location.
- 6 Boundary grids will be maintained.

Gravel Supply Agreements

Where gravel is negotiated with land holders from pastoral property either a written or verbal agreement is to be entered into with the landholder as required. The agreement is to clearly identify estimated area required and the amount of gravel to be extracted.

If the proposed pit requires clearing, then a clearing permit is to be obtained from the Department of Environment Regulation prior to extraction of the gravel. The landholders' permission will be required for the application to progress.

Once a clearing permit has been obtained extraction shall be undertaken in accordance with any approved conditions and operational practices

Once the pit is depleted gravel pits are to be levelled and reinstated by council staff at the end of their useful life as determined by the Works Manager or Chief Executive Officer in accordance with any approved conditions and operational practices:

Note: Council reserves the right to enforce its rights to extract gravel by legal means if arrangements cannot be made with landholders.

Roads Hierarchy

Council has an adopted and from time to time will amend a Road Hierarchy for all of roads throughout the Shire of Murchison. This hierarchy is used as a means of defining the function of the road, categorising its importance, prioritising works, determining asset management strategies as well as maintenance levels throughout the Shire. The Road hierarchy will be consistent with Main Roads WA road classification system.

Road Drainage Principles and Practices

On a situation by situation basis, roads need to be constructed and maintained within in accordance with established road design standards.

In doing so the environmental impacts associated with drainage of land and roads need to be recognised and considered such that where possible road construction and maintenance activities need to be undertaken in a practical and appropriate manner so as to

- ~ cater for variable rainfall frequencies and intensities events
- ~ minimise water velocities
- ~ minimise scouring not just to the road but also surrounding land
- ~ minimise or prevent rain shadow effects on one side of the road through as far as practicable natural distribution of floodwaters
- ~ minimise or prevent ponding adjacent to the road formation
- ~ avoid the road becoming an effective channel for floodwaters
- ~ avoid if at all possible, interfering with the natural water flow

It is recognised that not all situations will be identical with different techniques applied in flat terrain compared to undulating breakaway country and in large and small catchments but in many instances a road design and practices can be adapted to suit the above aims and principles without compromising road safety.

Examples of potential solutions could include but are not limited to the following

- ~ use of bunds and drains
- ~ lengthening floodways
- ~ constructing the road level at the level of the natural stream
- ~ installing low flow culverts that drain the water catchment after the flood peak has passed where road is required to be built up
- ~ where the road has become an effective channel for floodwaters distribute flows at regular intervals back into the surrounding land rather than within the road reserve

These principles also apply in situations where Council chooses to undertake works when Bunding Old Roads

Copies of CDC's for all Council Projects are to be retained on site at the Shire Administration Centre, Murchison Settlement

Where any owner or occupier wishes to lodge a CDC for any construction undertaken within the Shire but outside of the Murchison Settlement, a copy will be retained on the Shire records free of charge.
