5 GENERAL BUSINESS

Business Arising from Previous Minutes

Roadhouse Fuel Pricing

Cr M Fowler raised a matter of the pricing of fuel at the Roadhouse with a suggestion that a review be undertaken including comparisons with other outlets in the region. The following resolution was then carried.

That Council be requested that to investigate the price of fuel charged at the Roadhouse with such review including comparisons with other outlets in the region.

Since the July Annual Meeting of Electors this aspect was investigated with a report considered and noted at the Council's November Meeting. There was no change to the current pricing arrangements with the following actions noted at the meeting.

~ ULP Signage

It was considered appropriate that the public be advised that the ULP provided at the Roadhouse be identified as ULP95 rather than ULP91 as may be incorrectly assumed by patrons.

~ Fuel Supply

Arrangements for the supply of fuel at the Roadhouse, Shire Works and Community were also discussed and was considered appropriate that given increased number of suppliers now available in the region that the Shire Fuel Supply Arrangements which include provisions for community access be market tested.

As a result, Quotations for Supply of Fuel and Oils for a minimum two-year period which included provisions for community access were advertised in January 2024 with the current supplier FueleX ultimately being successful.
